

Changsha City Towers, China

The Changsha City Towers development comprises two towers with a total building area of 87,480 square metres. The Sheraton Changsha Hotel was the first international 5-star hotel in Hunan Province and offers 388 rooms and suites, as well as other luxury facilities.

This prestigious project specified Apollo's fire detectors to meet its fire protection requirements. The intelligent fire detection system is based on Apollo's XP95 technology and will include 4,102 XP95 smoke and heat detectors, 632 manual call points and almost 2,000 interfaces.
