

Apollo Fire Detectors Ltd – Havant

The Company is committed to a comprehensive and developing policy of assuring the occupational health & safety of all employees, contractors, or visitors.

In the accomplishment of this aim, the site shall provide a safe working environment, for everyone on site and others who may be affected by its activities. This shall be controlled and monitored through the sites H&S management system where reasonably practical to do so.

In carrying out this policy, we will ensure that the site is committed to:

1. Placing the management of Health & Safety as a prime responsibility of line management, from most senior executive to first line supervisory level.
2. Providing as low as reasonably practical control of Health & Safety risks arising from our work activities.
3. Providing a framework for continual improvement and use the best available techniques.
4. Providing a framework for setting objectives and a means to measure them.
5. Employee commitment to the policy and its implementation through participation.
6. Maintaining safe plant and equipment.
7. Ensuring safe handling, use of and correct disposal of materials, substances, and waste.
8. Ensuring that all employees of all levels receive appropriate training, information, and instruction; and are competent to carry out their duties and responsibilities and have adequate supervision.
9. Maintaining safe and healthy working conditions.
10. Preventing accidents and cases of work-related ill health through our work activities where reasonably practicable.
11. Complying with and exceeding current and all future applicable Legislation, Codes of Practices and Guidance that the site subscribes to where reasonably practical to do so.

Signed and Dated:

David Bulley (Managing Director)
