Update to Technical Bulletin (TB-2106): Flame Detectors

Reason for notification:

Update to TB-2106 regarding estimated dates for resumption of supply for flame detectors.

Detail:

As previously advised, following a component obsolescence, our supplier has identified and is migrating to the alternative IR sensor component requiring re-approval. Unfortunately, there has been a delay in the approval schedule resulting in standard products and base mounts having different availability dates.

Please refer to the tables below for individual product numbers and estimated resumption dates.

IR2, IR3 and UV/IR2 product dates

Approval	Estimated Approval Completion	Estimated resumption of Stock into Apollo
BRE, UKCA, LPCB	December 2023	January 2024

All products of the model numbers identified below are affected by this issue.
